Re: Mission Linen Service
NPDES Permit #CA0003565
Order No.2000-02

Dear Ms. Komeylyan,

Enclosed is our "Discharge Monitoring Report" for the first half of 2001. As outlined in letter dated January 4, 2001 (Copy Attached), the Mission Facility's last discharge into the Loma Alta Creek was on February 16, 2001. The brine is now collected in storage tanks and is hauled away for disposal.

No sample was taken during the period involved. Hence, the enclosed report has no data.

At this time, Mission is requesting that our NPDES Permit #CA0003565, Order No.2000-02 be terminated. We will no longer be discharging into the Loma Alta Creek; and hence, there is no need for a permit.

If you have any questions or need more information, please call me at (805) 730-3605.

Sincerely,

Saul Rackauskas
Environmental Engineer
